Growth rate:	Moderate
Special features:	Dramatic Foliage Color, Fall Color
Landscape uses:	Border, Container, Firescaping / Fire Wise, Hedge
Blooms:	Produces no flowers or fruit
Foliage color:	Multicolored

Care Information

Follow a regular watering schedule during the first growing season to establish a deep, extensive root system. Watering can be reduced after establishment. Feed with a general purpose fertilizer before new growth begins in spring.

Design Ideas

Smaller than its predecessors and impossibly bright, this is the consummate accent for Asian-inspired gardens or for shaded landscapes in need of color. Plant as a single specimen in smaller gardens and courtyards, where its color provides a focal point or accent. Use in clusters for a powerful presence in more spacious landscapes. Perfect as a lacy overhang that won't block sunlight to water gardens, pools and fountains. Ideal plant for spas in small urban backyard gardens. May also be planted in pots.
